

**Twenty-fourth Session of the Africa Working Group
on Disaster Risk Reduction, 25-27 March 2026, Bujumbura, Republic of
Burundi**

Outcome report

Photo of participants attending the twenty-fourth session of the Africa Working Group on Disaster Risk Reduction

Introduction

The twenty-fourth session of the Africa Working Group on Disaster Risk Reduction was held from 25 to 26 March 2026 in Bujumbura, under the theme “Accelerating action on the Windhoek Declaration and the Africa Common Position to the Global Platform for Disaster Risk Reduction 2025 commitments”. The meeting was attended by 91 participants, including 9 online. Participants were drawn from member organizations of the Working Group and other invited stakeholder entities, including Regional Economic Communities (RECs),¹ Member States,² United Nations entities and civil society organizations, among which were organizations of person with disabilities. Of the participants, 34 were women, representing 37 percent of the total (see annex III). Despite an improvement in women’s participation compared with the previous session, sustained efforts are still needed to achieve gender parity in future sessions.

The session was chaired by the African Union Commission, while the United Nations Office for Disaster Risk Reduction Regional Office for Africa served as a secretariat.

Objective

The main objectives of the twenty-fourth session were to review progress and identify next steps in implementing the recommendations and action points adopted at the twenty-third session, and to deliberate on prioritized thematic areas and agree on the way forward to advance progress toward delivering the Programme of Action (POA) for the Implementation of the Sendai Framework for Disaster Risk Reduction 2015-2030 in Africa, the Windhoek Declaration, and the Africa Common Position to the Global Platform for Disaster Risk Reduction 2025.

Opening remarks

The opening session was moderated by Colonel Salvator Masabo, Director of Civil Protection Works Engineering, DRM Department, Ministry of Home Affairs, Republic of Burundi, with opening remarks delivered by Mr. Amjad Abbashar, Chief, UNDRR Regional Office for Africa, Mr. Semingar Ngaryamngaye, Head, Disaster Risk Management and Climate Change Adaptation Service, Economic Community of Central African States, and Dr. Fatima Zahra Jihane EL Gaouzi, Head, Sustainable Environment and Blue Economy Division, African Union Commission. They thanked the government of the Republic of Burundi for hosting the meeting and for the hospitality accorded to the participants, and expressed gratitude to the development partners, including Government of Italy, the Government Germany, and the European Union for their sustained support to implement the Programme of Action and the Sendai Framework and driving progress towards the 2030 Agenda and Agenda 2063. The key points highlighted during their remarks are summarised below.

¹ The Community of Sahel-Saharan States (CEN-SAD), Economic Community of Central African States (ECCAS), Economic Community of West African States (ECOWAS), Intergovernmental Authority on Development (IGAD), Southern African Development Community (SADC), and Arab Maghreb Union (UMA)

² Central African Republic, Federal Democratic Republic of Ethiopia, Republic of Burundi, Republic of Namibia, Republic of South Africa, and Republic of Sierra Leone,

Mr. Abbashar highlighted the state of disaster impacts in Africa sighting data from the Sendai Framework Monitor reporting, which indicates an increase in disaster related mortality and number of disasters affected people by 26 percent and 83 percent respectively in the last decade (2015-2024). He also noted that direct economic losses attributed to disasters exceeded USD 133 billion over the same period between, underscoring the growing economic burden of climate and disaster risks in Africa.

He also highlighted improvements in the number of countries with risk reduction strategies aligned with the Sendai Framework, which increased from 12 countries in 2015 to 31 countries in 2024. He also noted progress in the coverage of the multi-hazard early warning systems, which increased from 40 percent in 2022 to 57 percent in 2024. Additionally, he mentioned a 72 percent improvement in the comprehensiveness of the multi-hazard early warning systems in Africa since the launch of the Early Warnings for All initiative in 2022.

Mr. Abbashar further emphasised the need for the AWGDRR to strengthen its technical and coordination support to reduce the impacts of disasters in Africa if the continent is to advance progress the Sendai Framework and its Programme of Action in Africa in support of the 2030 Agenda for Sustainable Development and the 2063 Agenda: The Africa We Want, underlining the importance of the twenty-fourth session in driving this agenda forward through its deliberations focused on prioritized thematic areas.

Mr. Ngaryamngaye noted that holding the event in the ECCAS region is a demonstration of the AWGDRR's continued support to the Commission in its efforts to address the impacts of climate change, particularly as droughts, floods, heatwaves continue to affect food security and livelihoods in the region. Organizing the event in the region is also a testimony to the importance ECCAS attaches to disaster risk reduction as an important instrument to build climate and disaster resilience. He further emphasised the important role played by the AWGDRR in coordinating all relevant stakeholders toward delivering the Sendai Framework and the Programme of Action.

Dr. EL Gaouzi reinforced the concerns raised by Mr. Abbashar regarding the impact of disasters in Africa, citing data from the third Africa Biennial Report covering the period 2022-2023 that shows an increase of disaster from 496 in 2019-2020 to 612 from 2021-2022, as well as a rise in loss of life from 42,275 from 2019-2020 to 279,103 from 2021-2022.

While she acknowledged that the revision of the matrix for the Programme of Action for the Implementation of the Sendai Framework for Disaster Risk Reduction 2015-2030 in Africa for 2026-2030, marks a significant milestone, she emphasised the need to do more to deliver concrete results and called on partners to strengthen their support in this regard. In addition, she underscored the importance of adopting a more proactive approach, including regularly taking stock of achievements and challenges to ensure effective implementation of the new matrix, guided by priorities outlined in the Windhoek Declaration and the Africa Common Position to the 2025 Global Platform for DRR. Lastly, she urged the AWGDRR to come up with concrete and actionable commitments and recommendations to accelerate the implementation of the Sendai Framework and the Programme of Action for its

implementation in Africa, and the Africa Common Position to the Global Platform for DRR 2025.

The meeting was officially opened by Hon. Assistant to the Minister of the Interior, Community Development and Public Security, Burundi, Hon. Brigadier General of Police, Célestin Nibona Bonansize.

The Hon. Assistant to the Minister highlighted the major disasters facing the country such as floods and landslides particularly due to the Lake Tanganyika level rise. He also noted that over 90 percent disasters in the country are hydrometeorological, which have resulted in economic losses amounting to 2.5 percent of the GDP. He added that to address this challenge and to enhance disaster risk reduction and build resilience, the government is taking several measures in the areas of preparedness and in strengthening the national coordination platform. Work to elaborate the national DRR policy is also being carried out. He underscored the importance of such country-level efforts and regional collaboration in accelerating the implementation of the Sendai Framework, the Programme of Action, the Windhoek Declaration, and the Africa Common Position to the 2025 Global Platform for Disaster Risk Reduction and the importance of the twenty-fourth session in this regard.

Adoption of the programme of work

The programme of work was adopted as presented. The agenda comprised twelve sessions, including thematic panel discussions and breakout sessions focused on issues aligned with the theme of the meeting (see annex II).

Summary of discussions and recommendations

The Group concentrated its deliberations on prioritized thematic areas, which are critical to delivering the POA, the Windhoek Declaration, and the Africa Common Position for the Global Platform for Disaster Risk Reduction 2025. These included:

- Financing for disaster risk reduction;
- Gender and disability Inclusive disaster risk reduction and resilience;
- Multi-hazard early warning systems, including advancing the Early Warning for All initiative, and anticipatory action;
- Recovery readiness and infrastructure;
- Resilience building;
- Institutionalization of climate-resilient irrigation and agri-food value chains as core to disaster risk reduction and climate change adaptation investments, and;
- The use of Artificial Intelligence in climate and disaster resilience.

The Group also conducted an in-depth review of the status of the implementation of the recommendations adopted at its twenty-third session. The key achievements identified during the review of the recommendations from the twenty-third session are summarized below:

- Increase in the number of countries reporting through the Sendai Framework Monitor (SFM), as well as the use of evidence generated by SFM to inform national policy decisions and strengthening accountability for the Sendai Framework targets.
- Update of the Action Plan for the Implementation of the Windhoek Declaration by the African Union Commission to incorporate the Africa Common Position for the Global Platform for Disaster Risk Reduction 2025.
- Launch of the Resilience Insight Africa- a digital platform-by the Resilience Initiative Africa (RIA) to support risk-informed urban development, disaster risk reduction, and climate resilience across the continent.
- Update of the draft matrix for the implementation of the POA (2026-2030), based on inputs from the twenty-third session.
- The establishment of a special solidarity fund in the CEN-SAD region.
- Enhancing the capacity of the ECCAS Multi-Hazard Early Warning Situation Room through the secondment of a staff by UNDRR.
- Secondment of climate finance expert by the Norwegian Capacity (NORCAP) to support the ECCAS DRM and Climate Adaptation Unit and the regional climate centre, including in resource mobilization.
- Development of a comprehensive Policy Brief and implementation framework on the Regional Resilience Strategy for West Africa.
- Mobilizing resources, in collaboration with AUC and UNDRR, from the 11th European Development Fund and European Commission's Directorate-General for Civil Protection and Humanitarian Aid Operations in support of the operationalization of the ECOWAS Situation Room.
- Development of a regional roadmap for anticipatory action and national hazard watches in Uganda and Djibouti.
- Advancement of regional and national disaster risk financing, including the establishment of disaster response fund in Ethiopia and the IGAD's ongoing feasibility study on the establishment of a regional disaster risk financing facility to support coordinated drought and disaster risk financing across IGAD Member States.
- Significant progress in the development of national road maps in Uganda, Kenya, Ethiopia, South Sudan, and Somalia in support of anticipatory and early action.
- Launch of a study on disaster loss and damage in the SADC region in January 2026, which is expected to be completed in June 2026.
- Development of the Transformation of urban informal settlements and mainstreaming of DRR in urban development and systems,

- Development of the SADC disaster recovery framework, Humanitarian and Emergency Operations Centre (SHOC) strategy and plan, as well as SHOC standard operating procedures for Emergency Response teams, Early warning and monitoring, Humanitarian supply chain management, emergency telecommunication, and Transboundary risk coordination and cooperation.
- Consultation with Member States on the establishment of the Multi-Hazard Early Warning Situation Room in the UMA region.

Major challenges highlighted by the regional economic communities, included limited human and financial resources, the lack of a full fledged structure for disaster risk reduction at UMA, slow progress in implementing activities at national level in the IGAD region due to some bureaucratic hurdles, variations in commitment and capacity across Member States, which makes coordination challenging, and limited coordination between regional and national institutions.

To address these challenges and accelerate the implementation of the POA, Windhoek Declaration and the Africa Common Position for the Global Platform 2025, RECs called on the Working Group to mobilize and sustain political commitment; enhance regional collaboration, including the exchange of best practices; strengthen technical support to RECs and Member States; promote joined-up programming; and support a coordinated approach to resource mobilization to address financing gaps across RECs and Member States.

The AWGDRR reviewed and validated the draft 2026-2030 implementation matrix for the Programme of Action for the Implementation of the Sendai Framework for Disaster Risk Reduction 2015-2030 in Africa, prepared by the AUC based on inputs from the twenty-third session and the subsequent consultations with RECs and member states. After a thorough discussion on the draft matrix, the Group requested the AUC to conduct further consultation with RECs and member states and finalize and operationalize the matrix by June 30, 2026.

Panel discussions, breakout sessions, and presentations focused on the remaining thematic areas resulted in concrete and actionable recommendations (see annex 1). These included:

- Constitute and operationalize a sub-working group on DRR financing facilitation mechanism under AWGDRR.
- Finalize the Terms of Reference for the Continental Sub-Working Group on Anticipatory Action under the Africa Multi-Hazard Early Warning and Early Action System (AMHEWAS) Technical Working Group and ensure its operationalization.
- Develop an implementation roadmap for the African Union Guidelines on Resilience building.
- Promote the institutionalization and scaling-up of climate-resilient irrigation and agri-food value chains.
- Support the integration and use of Recovery Readiness Assessment Framework.

- Encourage the integration of infrastructure stress-testing into disaster and climate risk management planning.
- Leverage tools such as the IGAD's East Africa Hazard Watch and Google's climate Artificial Intelligence (AI) models to close the last-mile gap through AMHEWAS and to achieve the Early Warnings for All (EW4All) initiative by 2027.
- Support countries to implement the Gender Action Plan Implementation Checklist.

The Working Group requested the African Union Commission and the United Nations Office for Disaster Risk Reduction Regional Office for Africa to follow up with the identified lead and supporting entities on the implementation of these recommendations, to regularly update the Working Group on progress, and to prepare a consolidated report for discussion at its twenty-fourth session.

Date and venue of the twenty-fourth session

The twenty-fifth session is tentatively scheduled for October 2026 in the Arab Maghreb Union (UMA) region. The African Union Commission will follow up with the UMA Secretariat and inform the Working Group, through the secretariat (UNDRR), of the agreed dates and the host country once these have been confirmed.

Closing remarks

Closing remarks were delivered by Mr. Amjad Abbashar, Chief, UNDRR Regional Office for Africa, Mr. Semingar Ngaryamngaye, Head, Disaster Risk Management and Climate Change Adaptation Service, ECCAS, and Ms. Teresa Pinto, DRR Technical Coordinator, AUC. , and Brigadier General of Police, Célestin Nibona Bonansize, Assistant to the Minister of the Interior, Community Development and Public Security, Republic of Burundi. The closing session was moderated by Prof. Emmanuel Osuteye, Urban Resilience Advisor, AUC.

In their remarks, the speakers expressed their appreciation to the Government of the Republic of Burundi and ECCAS Commission for successfully hosting the meeting. They also thanked the participants for their active participation and for their continued support to implement DRR strategies aligned with the Sendai Framework at all levels. In addition, they acknowledged the significant improvements made by the AWGDRR overtime in terms of inclusivity, as well as the structure and content of the programme for its sessions. In particular, they noted the introduction of new and emerging state-of-the-art topics such as AI, readiness recovery, resilience infrastructure, DRR financing, and disaster loss and damage tracking, as well as the high quality of discussions in each session. Further, they underlined the need to strengthen domestic resource mobilization to address DRR financing gaps and to do more to link early warnings to early actions.

In his closing statement, Brigadier General of Police, Célestin NIBONA BONANSIZE, Assistant to the Minister of the Interior, Community Development and Public Security, Burundi, reaffirmed the government's commitment to supporting the implementation of the recommendations adopted during the meeting in support of the Sendai Framework, the POA,

the Windhoek Declaration, the Africa Common Position to the Global Platform for DRR 2025, and the EW4All initiative.

Annex I

Africa Working Group on Disaster Risk Reduction

Twenty-fourth session

Agreed recommendations/action points:

No.	Action	Lead entities	Support entities	Time frame
1.	Constitute the Sub-Working Group for Disaster Risk Reduction Financing Facilitation under the AWGDRR	AUC, UNDRR	RECs, WMO, UNDP	By 31 July 2026
2.	Finalize and develop an implementation roadmap for the African Union Guidelines on resilience building	AUC	RECs, UNDP, NORCAP, UNICEF, WHO, IOM, GIZ, IFRC	By 31 October 2026
3.	Support countries to implement the Sendai Gender Action Plan to advance country-level progress in achieving inclusive and gender-responsive disaster risk reduction	AUC, UNDRR	RECs, UN-Women, OPD	Continuous (progress update at the next AWGDRR meeting)
4.	Consult further to finalize the Terms of Reference for the Continental Sub-Working Group on Anticipatory Action under the Africa Multi-Hazard Early Warning and Early Action System (AMHEWAS) Technical Working Group and ensure its circulation to MS and RECs	AUC	AUDA-NEPAD, IGAD, SADC, UMA, ECOWAS, ECCAS, ACMAD, UNDRR, WMO, FAO, IOM, UNICEF, GIZ, IFRC, GreenAid International	By 31 October 2026

No.	Action	Lead entities	Support entities	Time frame
5.	Further consult to finalize and operationalize the new 2026-2030 implementation matrix for the Programme of Action for the Implementation of the Sendai Framework for Disaster Risk Reduction 2015-2030 in Africa	AUC	AWGDRR	• Additional inputs from MS, RECs and members-by 15 April 2026 • Organize a virtual meeting to finalize the matrix-by 31 May 2026 • Operationalize the new matrix-by June 30 2026
6.	Support the institutionalization of climate-resilient irrigation and agri-food value chains as core disaster risk reduction and climate change adaptation investments	AUC, UNDP	RECs, FAO	Continuous (progress update at the next AWGDRR meeting)
7.	Support Member States in integrating and using the Recovery Readiness Assessment Framework across countries to strengthen preparedness and enable rapid, coordinated, and resilient recovery.	AUC, UNDRR	RECs, Member States, UNDP	Continuous (progress update at the next AWGDRR meeting)
8.	Promote the systematic integration of infrastructure stress-testing as a core requirement in national and regional infrastructure planning and investment decision-making	AUC, UNDRR	RECs, CDRI, UN-Habitat	Continuous (progress update at the next AWGDRR meeting)
9.	Support countries to close the last-mile gap through AMHEWAS	AUC, RECs	RECs, RCCs, ACMAD,	Continuous (progress

No.	Action	Lead entities	Support entities	Time frame
	by strengthening and institutionalizing local early warning systems, leveraging tools such as the East Africa Hazard Watch and Google's climate AI models, and enhancing capacity and partnerships at all levels to achieve EW4All by 2027		UNDRR, WMO, ITU, IFRC, Google	update at the next AWGDRR meeting)
10.	Follow-up with lead entities on pending Recommendations/Action Points from the Twenty-third session of the AWGDRR and keep the Group informed of progress	AUC	UNDRR	By 31 October 2026

Twenty-fourth session

Programme of work

Time	Programme	Responsible/Facilitator/Moderator
Day 1: Wednesday, 25 March 2026		
08:30-09:00	Registration	AUC, UNDRR
09:00-09:10	Playing Anthems - African Union - Host country	AUC
09:10-09:32	Opening session Welcome remarks: - Mr. Amjad Abbashar, Chief, Regional Office for Africa, UNDRR, 5 minutes - Mr. Semingar Ngaryamngaye, Head, Disaster Risk Management and Climate Change Adaptation Service, ECCAS, 5 minutes - Dr. Fatima Zahra Jihane EL Gaouzi, Head, Sustainable Environment and Blue Economy Division, AUC 5 minutes Official opening: Brigadier General of Police, Célestin NIBONA BONANSIZE, Assistant to the Minister of the Interior, Community Development and Public Security, 7 minutes	Colonel Salvator Masabo, Director of Civil Protection Works Engineering, DRM Department, Ministry of Home Affairs, Republic of Burundi
09:32-09:40	Group photo	AUC, UNDRR
09:40-10:00	Coffee break	AUC, UNDRR

Time	Programme	Responsible/Facilitator/Moderator
10:00-10:10	Adoption of the Agenda	Dr. Fatima Zahra Jihane EL Gaouzi, Head, Sustainable Environment and Blue Economy Division, AUC
10:10-11:30	Session 1: An in-depth review of progress in implementing the recommendations adopted at the 23rd Session of the Africa Working Group on Disaster Risk Reduction (AWGDRR) Setting the scene: Ms. Zebad Alemayehu, UNDRR, 15 minutes Reflections from Regional Economic Communities on achievements and the way forward to advance progress: • Mr. Mansur Abubakar Isa, Programme Officer and DRR Focal Point, Community of Sahel-Saharan States (CEN-SAD), 5 minutes • Mr. Semingar Ngaryamngaye, Head, Disaster Risk Management and Climate Change Adaptation Service, Economic Community of Central African States (ECCAS), 5 minutes • Dr. Mohammed Ibrahim, Head of Division, Humanitarian Affairs & Disaster Risk Management, Economic Community of West African States (ECOWAS), 5 minutes	Ms. Teresa Pinto, DRR Technical Coordinator, AUC

Time	Programme	Responsible/Facilitator/Moderator
	• Dr. Ahmed Amdihun, Head of Disaster Risk Management Unit, Intergovernmental Authority on Development (IGAD), 5 minutes • Dr. Pios Ncube, Programme Coordinator, Disaster Risk Management & Strengthening, Southern African Development Community (SADC), 5 minutes • Mr. Habib Hlali, DRR Regional Focal Point, Arab Maghreb Union (UMA), 5 minutes Discussion, 25 minutes Chair's summary and key takeaways, 5 minutes	
11:30-12:00	Session 2: Briefing on the African Risk Capacity Group's current activities and next steps • Presentation: Mr. Mamadi Sidibe, acting Head of West, North and Central Africa, African Risk Capacity Group, 15 minutes • Discussion, 10 minutes Chair's summary and key takeaways, 5 minutes	Mr. Semingar Ngaryamngaye, Head, Disaster Risk Management and Climate Change Adaptation Service, ECCAS
12:00-13:00	Session 3: DRR Financing Facilitation Mechanism under AWGDRR: Validation of Terms of Reference, DRR Financing	Dr. Ahmed Amdihun, Head of Disaster Risk Management Unit, IGAD

Time	Programme	Responsible/Facilitator/Moderator
	Barometer concept mock-up, and early survey insights on DRR financing needs in Africa Setting the scene: Ms. Belinda Kaimuri, Economic Affairs Officer, UNDRR, 15 minutes • Breakout sessions, 60 minutes • Report from breakout groups, 20 minutes • Discussion, 20 minutes Chair's summary and key takeaways, 5 minutes	
13:00-14:00	Lunch	AUC, UNDRR
14:00-15:00	Session 4: Operationalization of the Roots of African Resilience (RoAR): Presentation of the guidelines on resilience building Setting the scene: RoAR and AU guideline Overview: Prof. Emmanuel Osuteye, Urban Resilience Advisor, AUC, 10 minutes • Panel discussion: Operationalizing the Guidelines across levels, 30 minutes Panellists: • Dr. Pios Ncube-SADC • Dr. Mohammed Ibrahim-ECOWAS • Ms. Rita Filipe de Almeida- Mozambique • Dr Gatkot Kai, UNDP • Discussion, 15 minutes	Mr. Habib Hlali, DRR Regional Focal Point, UMA

Time	Programme	Responsible/Facilitator/Moderator
	Chair's summary and key takeaways, 5 minutes Ms Adair Ackley, UNDRR Ms Adair Ackley, UNDRR	
15:00-16:00	Session 5: Strengthening gender and disability inclusive DRR in Africa: guidelines for country-level application of the Sendai Gender Action Plan (GAP) Implementation Checklist. Setting the scene: Introduction of the Sendai GAP Country Checklist, Ms Adair Ackley, UNDRR, 15 minutes - Panel discussion: Country Application Example (Burundi) case study on: Sendai GAP key objective 1: Increase the availability of sex, age, income and disability disaggregated data and qualitative information on gender and disaster risk, Moderated by: Mr. Innocent Nkurunziza, UNDRR Burundi, consultant, 30 minutes Panellists: - Colonel Salvator Masabo, Director of Civil Protection Works Engineering, DRM Department, Ministry of Home Affairs, Republic of Burundi - Ms. Kamenge Leopoldine, Women's Association, Burundi - Mr. Ndereyimana Remy, Organization of Persons with Disabilities, Burundi	Ms. Adair Ackley, UNDRR

Time	Programme	Responsible/Facilitator/Moderator
	○ Mr. Nikwibitanga Ambroise, Chief Service Agriculture and Environment, National Statistics, Burundi ○ Mr. Hugo Brandam, DRR Programme Officer, IOM, Burundi ● Synthesis and way forward, Ms. Adair Ackley, UNDRR, 10 minutes Chair's summary and key takeaways, 5 minutes	
16:00 -16:30	Coffee break	AUC, UNDRR
16:30- 17:30	Session 6: Continental Technical Working Group on Anticipatory Action under AMHEWAS: Progress and next steps ● Setting the scene: Presentation of the Continental Working Group on Anticipatory Action by Mr. John Mathias Kiriwai, AUC, 20 minutes ● Presentation: Highlight from Regional AA Working groups – Lesson learnt (Gaps, Challenges and Opportunities), Dr. Ahmed Amdihun, Head of Disaster Risk Management Unit, IGAD Climate Prediction & Applications Centre (ICPAC), 10 minutes ● Presentation: Experience sharing by Mr. Dominique Resumkens, Resilience Specialist, FAO Regional Office for Africa, 10 minutes ● Plenary discussion, 15 minutes	Dr. Pios Ncube, Programme Coordinator, Disaster Risk Management & Strengthening, Southern African Development Community, SADC

Time	Programme	Responsible/Facilitator/Moderator
	Chair's summary and key takeaways, 5 minutes	
Day 2: Thursday, 26 March		
8:30-09:30	Session 7: Transformative Community Resilience interventions: Showcasing best on Climate Smart Irrigation System. • Presentation: An overview of the 'Advancing Food Systems Resilience Project' and Pontoon-Based Solar Irrigation System, Ms. Lala Dabo, Community Resilience Analyst, UNDP Resilience Hub, 10 minutes • Community Perspective: Share country-level lessons from implementing Pontoon-Based Solar Irrigation System, Mr. Morris Kadenge, Secretary, Ngao Irrigation Scheme, 10 minutes • Discussion, 15 minutes Chair's summary and key takeaways, 5 minutes	Dr Tabi Joda, Director, GreenAid International
09:30-10:00	Session 8: Briefing on the revised matrix for the Programme of Action for the Implementation of the Sendai Framework for Disaster Risk Reduction 2015-2030 in Africa for 2026-2030 • Presentation: AUC, 15 minutes • Discussion, 12 minutes	Brigadier General Ntirampeba Ménédore, Head of Prevention and Disaster Management Actions, Republic of Burundi

Time	Programme	Responsible/Facilitator/Moderator
	Chair's summary and key takeaways, 3 minutes	
10:00-11:00	Session 9: Readiness for Resilient Recovery: Presentation of the framework for assessing readiness for recovery Setting the scene: Ms. Asha Sitati, Programme Management Officer, UNDRR, 10 minutes • Breakout sessions (across 4 domains – finance, governance, capacity building and data), 20 minutes • Report from breakout groups, Rapporteurs, 15 minutes • Discussion, 10 minutes Chair's summary and key takeaways, 5 minutes	Dr. Mohammed Ibrahim, Head of Division, Humanitarian Affairs & Disaster Risk Management, ECOWAS
11:00-11:15	Coffee break	AUC, UNDRR
11:15-12:00	Session 10: Role of Artificial Intelligence (AI) in climate and disaster resilience • Presentation: Ms. Nina Bekele, Product Partnerships, Social Impact, Google, 25 minutes • Discussion, 15 minutes Chair's summary and key takeaways, 5 minutes	Mr. Amjad Abbashar, Chief, Regional Office for Africa, UNDRR

Time	Programme	Responsible/Facilitator/Moderator
12:00-13:00	Session 11: Moderated discussion on stress-testing infrastructure: A basis for prioritizing infrastructure needs and enhancing infrastructure resilience Setting the scene: Ms. Asha Sitati, Programme Management Officer, UNDRR, 15 minutes Discussants: 25 minutes • Ms. Sakshi Chadha Dasgupta Lead Regional Portfolio Specialist, CDRI • Prof. Emmanuel Osuteye, Urban Resilience Advisor, AUC • Ms. Meremiya Hussein, Regional Coordinator-SURGe, Africa, UN-Habitat Regional Office for Africa • Mr. Paulus Ashili, Deputy Director: Policy Analysis and Coordination, Directorate Disaster Risk Management, Namibia Discussion, 15 minutes Chair's summary and key takeaways, 5 minutes	Mr. Mansur Abubakar Isa, Programme Officer and DRR Focal Point, Community of Sahel-Saharan, CEN-SAD
13:00-14:00	Lunch break	AUC, UNDRR
14:00-15:30		Ms. Asha Sitati, Programme Management Officer, UNDRR

Time	Programme	Responsible/Facilitator/Moderator
	Session 12: Is Africa on track to achieve Early Warnings for All (EW4All) initiative by 2027? Setting the scene: Ms. Asha Sitati, Programme Management Officer, UNDRR, 15 minutes Discussants: 50 minutes • Ms. Viola Otieno Early Warning Early Action Expert, AMHEWAS programme, AUC • Dr. Mariane Diop Kane, Programme Manager, WMO • Mr. Dessalgn Bekele Muluneh, Disaster Risk Reduction Team Leader, Ethiopian Disaster Risk Management Commission, Ethiopia • Ms. Mavis Maunganidze, Programme Officer, ITU Regional Office for Africa, ITU • Ms. Prisca Chisala Waluza, Regional Early Warning Early Actions Coordinator, Africa, IFRC • Ms. Nina Bekele, Product Partnerships, Social Impact, Google Chair's summary and key takeaways, 5 minutes	
15:30-15:40	Date and venue of the next AWGDRR meeting	Dr. Fatima Zahra Jihane EL Gaouzi, Head, Sustainable Environment and Blue Economy Division, AUC

Time	Programme	Responsible/Facilitator/Moderator
15:40-16:10	Consideration and adoption of draft action points • Presenter: Mr. Mathewos H. Tulu, UNDRR-15 minutes Feedback/reflections from the AWGDRR, 15 minutes	Dr. Fatima Zahra Jihane EL Gaouzi, Head, Sustainable Environment and Blue Economy Division, AUC
16:10-16:30	Closing session • Mr. Amjad Abbashar, Chief, Regional Office for Africa, UNDRR, 4 minutes • Mr. Semingar Ngaryamngaye, Head, Disaster Risk Management and Climate Change Adaptation Service, ECCAS, 4 minutes • Dr. Fatima Zahra Jihane EL Gaouzi, Head, Sustainable Environment and Blue Economy Division, AUC, 4 minutes • Brigadier General of Police, Célestin NIBONA BONANSIZE, Assistant to the Minister of the Interior, Community Development and Public Security, Republic of Burundi, 8 minutes	Prof. Emmanuel Osuteye, Urban Resilience Advisor, AUC
16:30-	Refreshment and Networking
